IslamicInfo is a full text database containing research and studies published in scientific journals and research conferences specializing in Islamic sciences and law.	

IEEE/IET Electronic Library (IEL)
 	
The most comprehensive and value-driven collection available through IEEE Xplore, IEL delivers innovative information and powerful research tools, including:
 	
• Unlimited, full-text access to more than four million documents
• Documents delivered in PDF and HTML (as available) formats
• Highly cited, peer-reviewed research that fuels more new patents than any other publisher, including:
   ○ 188 IEEE journals, magazines, and transactions
   ○ 30+ IET journals and magazines, plus 25 IET conference titles
   ○ Proceedings from over 1,700 IEEE and IET annual conferences
• More than 3,800 approved and published IEEE standards in key technology fields, with the option to add draft standards
• IEEE Redline Versions of Standards
• Complimentary access to Bell Labs Technical Journal
• Complimentary access to more than 9,500 papers from 20+ VDE conference titles
	IEEE

Cairn.Info Founded in 2005 by four Belgian and French academic publishers, Cairn.info offers the most comprehensive online collection of francophone publications in social sciences and humanities. In 2017, more than 450 journals and 8 000 eBooks from major French, Belgian and Swiss publishers can be accessed by students, scholars and librarians worldwide on www.cairn.info. To make this invaluable content accessible to a non–francophone readership, Cairn.info launched Cairn International Edition, an English-language platform where abstracts and selected articles from key journals on Cairn.info are translated from French into English, enabling users to search, browse and read this content without speaking a word of French. Cairn International Edition received support from the Centre Français d'exploitation du droit de Copie.	Cairn.Info
Horizon/Symphony from SirsiDynix	

For over 30 years, the ILS has progressively become the backbone of a library. Over those 30 years, versions of SirsiDynix's Symphony and Horizon platforms have supported hundreds of thousands of libraries. With a thriving, active community and user groups for both platforms, SirsiDynix is proud to continue support and develop both Horizon and Symphony well into the future. **Horizon:** Horizon provides a stable, proven platform for the BLUEcloud LSP. BLUEcloud augments Horizon's open database, powerful MARC editor, and intuitive merging tools with web-based clients and additional features designed for contemporary libraries. There's no cost of migration, and most BLUEcloud web clients are included in your Horizon maintenance. **Symphony:** Symphony combines top-notch, stable architecture with next-generation design. Combined with BLUEcloud technology, Symphony gives you the flexibility of web-based interfaces and eResource integration with the security of a proven back end. Additionally, most of the BLUEcloud products are included in your Symphony maintenance.	SirsiDynix
